PORTFOLIO OVERVIEW

# CONTENTS

Boston Global is a diversified investment group renowned for its expertise in property, structured finance, innovation, health and science. With progressive leadership, the Boston Global group delivers innovative solutions and first-class designs for all of their projects.

Boston Global Health & Science has either created or invested in, and been pivotal to the ongoing successful development biotech related companies. With the capability of producing solutions for both traditional medicine and natural remedies the business is focussed on taking products to market.

Outlined below are current projects within Boston Global's Health and Science portfolio. Please contact us should you require further information.

# BOSTON GLOBAL MEDICAL TOURISM

[bostonglobal.com.au](http://bostonglobal.com.au)

## ABOUT

Boston Global are leading the way with the development of Medi-tourism in Australia. With a depth of experience and unique approach to forward thinking, Boston Global are revolutionising the way that hospitals and patients facilitate pre-and post- surgery recovery and their overall medical experience. The Medi-tourist will commence their patient journey from when medical need is identified, and a decision is made to travel for medical assistance. Working alongside the Hilton brand, and prominent Australian hospitals including St Vincent's Private Hospital and Healthscope Private Hospitals, we have agreements with leading physicians across all medical sectors and specialities.

Australian physicians, hospitals and general healthcare has a high demand of International patients each year, not to mention a need to support Australian's ageing population, the need for these Medi-hotels which integrate and complement the patient journey is key to building medical tourism in Australia. Advantageously located, the Boston Medi-hotels will provide purpose build accommodation to a broad range of patient, business, student and leisure guests.

For more details of Investment overview please contact Boston Global for a copy of our Information Memorandum.

# FSHD GLOBAL RESEARCH FOUNDATION

fshdglobal.org

## ABOUT

FSHD Global focuses on finding treatments and a cure for Facioscapulohumeral Muscular Dystrophy (FSHD). In doing so, FSHD Global funds world class medical research, awareness and education. While striving to deliver its mission to fund medical research to find a cure for FSHD, the Foundation has recently broadened its scope by acknowledging the need to invest in muscle wellness and muscle technology which will assist all people who are affected by all muscle weakness disorders.

## SOME QUICK FACTS

- Since its establishment in 2007, FSHD Global has helped unlock the mechanism behind this complex disease, and today is on the road to clinical trial readiness and drug discovery.
- FSHD Global is the largest organisation funding research into FSHD in the world, outside the American Government.
- In 10 years, we have funded over \$10 million funding 48 medical research grants, across 9 countries.
- FSHD Global is the epicentre of world's best medical researchers and clinicians in the areas of muscle wellness and muscle biotech. Since its establishment several organisations have followed in its footsteps sharing our strategy and focus areas.
- The Foundation has a Board of Directors, a Scientific Advisory Board and an International Scientific Committee with a hand selection of world's best researchers and clinicians spanning areas of molecular science, drug discovery, diagnostics, muscle tech, exercise and wellness to name a few.
- Multiple Award Winning Charity, with 100% of all tax-deductible donations, directly invested into medical research, education, biotech innovations.

## OUR TEAM OF EXPERTS

- View the [BOARD OF DIRECTORS](#)
- View the [AUSTRALIAN SCIENCE ADVISORY BOARD](#) including Prof. John Rasko as our [PATRON OF SCIENCE](#)
- View [INTERNATIONAL SCIENCE COMMITTEE](#): highlighting some key scientist in the disease area. You will note a lot of these FSHD Professors also specialise in research areas such as Cancer and paediatric diseases.

# FACIO THERAPIES

facio-therapies.com

## ABOUT

Facio Therapies is a single-minded pharmaceutical company, with a focus entirely on one disease: FSHD – short for Facioscapulohumeral dystrophy. Purposely built to develop safe, effective and affordable therapies that stop the progression of FSHD, Facio Therapies pursues the discovery of small molecule compounds that repress the toxic protein that causes the expression of the disease. Facio developed a world first FSHD screening platform, discovered new opportunities to tackle the cause of FSHD, and showed proof of principle in a unique Human FSHD animal model. Facio is now paving the way to clinical trials.

## OUR TEAM OF EXPERTS

- THE BOARD is compiled of recognised global industry leaders of distinction and impressive networks, each propelling Facio to success.
- The TEAM, ADVISORS, PARTNERS and COMMUNITY ALIGNMENT consists of an impressive collaboration of globally renown scientists, medical institutions, leading drug discovery and development companies, charities and other pharmaceutical and biomedical industry.
- Boston Global's Chairman Bill Moss AO, co-founded Facio Therapies, and to date has been instrumental in raising capital, providing strategy and attracting expertise and networks for Facio Therapies growth and success.

# BIOREGENEX

bioregenex.com.au

## ABOUT

BioRegenex is a regenerative technologies biotech. Key areas of focus include;

- Therapeutics: Treating disease with a focus on Neuromuscular dystrophies and oncology associated Cachexia, including breakthrough myo-regenerative muscle transplant technology using stem cell & gene correction protocols to create implantable therapeutic myoblasts.
- Sports Medicine: Repairing muscle & tissue damage for professional athletes, including muscle transplant technology and 3D bio-fabrication and implants.
- Trauma & Defence: volumetric muscle loss & skeletal muscle ablation due to severe trauma, including intelligent prosthetics.

## OUR TEAM OF EXPERTS

BioRegenex was founded by an exceptional team of passionate frontier scientists with decades of deep domain knowledge encompassing neuromuscular & neurological research, cell biology, stem cell technologies, gene editing, biomedical engineering & 3D bio-fabrication.

The company is led by a multi-disciplinary team with a proven track record of translational, commercial & financial performance, guided by a world class international scientific advisory board all brought together under the governance & strategic oversight of a world class board.

# AUSTRALIAN MUSTARD OIL

[australianmustardoil.com](http://australianmustardoil.com)

## ABOUT

In 2014, Australian Mustard Oil Pty Ltd (AMO) successfully acquired the plant and equipment from the business of Palos Verdes Pty Ltd. The plant was relocated to Young, New South Wales, to meet the growing demand for a premium quality Volatile Oil of Mustard (VOM) and the double filtered, cold pressed Mustard Oil. New machinery was added to the plant and production commenced in November 2015. The company has grown significantly over the last few years due to higher demand for its premium quality oil which is produced in accordance to strict Australian guidelines. Australian Mustard Oil currently exports VOM to flavour and ingredient business' in Japan, India and Europe and cold pressed Mustard Oil to various buyers in Fiji, India and the UK.

Australian Mustard Oil is Australia's only exporter of the finest quality Volatile Oil of Mustard, one of six facilities in the world that supply Volatile Oil of Mustard, and the only one in the Southern Hemisphere. Supply agreements have been executed with strategic customers from all over the world, accounting for the current production volume.

AMO is in the business of various mustard products; mustard meal, mustard oil, volatile oil of mustard. Currently, AMO is diversifying into new products including insect repellants, anti-fungal products, shoe deodoriser, antibacterial hand wash, domestic garden pesticides, refrigerator deodoriser, antibacterial surface wipe, hair lice treatment, anti-mould for carpets, domestic dried fruit moth preventative, domestic flour weevil preventative, silverfish preventative, clothes moth preventative and food preservative which all have volatile oil of mustard as their base ingredient.

# PURE PLANT EXTRACTS AUSTRALIA

[pureplantextractsaus.com](http://pureplantextractsaus.com)

## ABOUT

Pure Plan Extract (PPE) is an Australian based biotech with a wide range of 'First to Market' natural plant based products and therapies. Established in collaboration with Australian Mustard Oil and Dr Ron Watts, PPE scientists have created natural high quality Volatile Oil of Mustard (VOM) based products which through the use of active ingredient Allyl isothiocyanate (AITC) has had great success with respect to anti-fungal products and insect repellents specifically targeting malaria and dengue fever mosquitos.

## SAMPLE OF PRODUCT RANGE

PPE has a wide range of products available in both domestic and international markets, with many new products in the pipeline about to enter the market. Some of the keystone products include;

- DEET and synthetic free Insect repellent, tested to be as or, more effective than competing products on the market, with excellent shelf life.
- Skin Antifungal is a wide spread and poorly treated health problem, particularly in tropical climates. This plant derived Antifungal product has been tested in state-of-the-art American University laboratories and was found to be effective against the most common cause of skin fungi- Trichophyton species.

## THE GLOBAL DISTRIBUTION

PPE is currently engaged in multiple negotiations with multiple parties all over the world. However, having the right product requires us to match it with the right partner. This is how a long-lasting brand is built. As soon as our production lines were commissioned, negotiations commenced with some of the most elite International brands and high-net-worth individuals. Due to the nature of the products, Asian markets were first in line. Having finalised our most recent exclusive distribution agreement with our partners in Indonesia, we are currently discussing partnerships in the Philippines.

# HALCYON BIOSCIENCE

halcyonbioscience.com.au

## ABOUT

Halcyon Bioscience is a biotech company that creates and develops innovative products using exclusive technology that enables small molecule absorption through cellular membranes. Since its inception in 2017, it has led the way globally developing highly effective natural products for both human and animal application.

The company holds innovative intellectual property rights for water-soluble technology that enables previously non-water-soluble botanical compounds to be mixed with water. Having developed the world's best nano technology, their competitive advantage is in its highly bioavailable and water soluble Vitamin D3, Vitamin C and nano curcumin product range. This revolutionary technology enables particle absorption to occur far more effectively than currently available processes allow. Halcyon's water-soluble technology is stable, clean and 100% plant-based. It is not only superior, but is far safer than synthetic alternatives.

## INNOVATION

Halcyon Bioscience prides itself on creating truly clean and innovative products eliminating the need for potentially toxic synthetic ingredients. Following several years of research and development, our Botanical Scientist has ingeniously designed a nano curcumin water-soluble product. This innovation is a world first, that drastically improves the bioavailability of the active tautomeric compound.

The creation of nano water-soluble technology can truly be described as a paradigm shift, by significantly improving the bioavailability to the body of botanical compounds.

## DISTRIBUTION

Halcyon Bioscience sells its botanical formulations to white label partners with wholesale distribution channels around the globe including; Europe, South Africa, UK, Australia, US, Indonesia, New Zealand. Currently distributing under five different labels, it also sells its products under its own brands: Herbal Human, Herbal Hound and Herbal Horse. Halcyon Bioscience is in preliminary discussions regarding product channels into China, Japan and South East Asia.

# HERBAL HUMAN

herbalhuman.com

## ABOUT

Herbal Human creates plant based water-soluble health drinks that rival traditional vitamin supplements as suggested by scientific research and nano technology. Herbal Human is revolutionising the vitamin industry with its unique bioavailability and high absorbency. Herbal Human has developed nano technologies to reduce molecular size and improve lipid solubility. This will result in the minerals and vitamins found in each product being able to pass through the biological membrane more efficiently, increasing the nutrient's effect on the human body.

Herbal Human's research and development parent company Halcyon Bioscience is a world leader in botanical extract technologies, and continuously strive to research and invent new breakthroughs in the science of plant compound extraction techniques. The team at Herbal Human are fanatical about the power of plants and have developed a unique, one of a kind range of products.

## BIOAVAILABLE TECHNOLOGY & WORLD LEADING SCIENCE

Herbal Human is a global leader in botanical nanotechnology. After 3 years of research and development of its nano technology, Herbal Human has recently launched its range of health products which are backed by independent peer assessed scientific research studies.

Specialising in the science of plant compound extraction techniques coupled with its water-soluble bioavailability, each purpose-built product delivers nutrients to every single cell throughout the body. Funded exclusively by Boston Global, Herbal Human operates from a State of the art manufacturing facility in Australia. With a global following of medical, health & wellness communities, our products are sold both retail and wholesale across; Australia, Asia, South Africa, Europe, New Zealand and America. Herbal Human is exclusively working with Boston Global and it's extensive network to distribute it's products through Australia's leading private hospitals as a nutritional food supplement for patient wellbeing.

## THE HERBAL HUMAN RANGE

- Immune Boost with Nano Curcumin
- Oxy-Omega- Metabolic Activator
- Vitamin D3- Oral Spray with natural antibiotic spices
- Real Vitamin C
- Detox- Detoxification Elixir
- Liquid Defender Curcumin Ultra
